Laidlaw Scholars Commitment

Each scholar agrees to:

1. Attend the development events throughout their time as a scholar
2. Undertake the work necessary to complete the research projects
3. Respond to communication from the scheme coordinators over the summer and during term-time
4. Attend research project meetings with the project supervisor/mentor and report on progress as agreed
5. Provide a project report at the end of each period of research work; this report will be signed off by the project supervisor and emailed to the Laidlaw Scholars Administrator
6. Join the Laidlaw Scholars private social group – allowing individuals to network with other scholars from their own and other universities, to share their experiences, answer questions and act as mentors to new cohorts.
7. Be open to participate in the production of content to be used on the Laidlaw Scholars website, and potentially be used for marketing the programme.
8. Keep the Laidlaw Scholars Administrator and Laidlaw Foundation updated with their progress and career information following graduation
9. Give back to scholars of the future by acting as a mentor
10. Provide email addresses to the CEO of the Laidlaw programme
