

A photograph of a human brain, viewed from the side, with a blue translucent overlay. The overlay contains the text "Neuron-based computer?".

Neuron-based computer?

Multidisciplinary Perspectives on “Mind”
USP Module UWC2101R

**Investigates the Mind from the points of view
of Biology, Philosophy, and Psychology.**

Each year, 180 incoming NUS students are admitted to the **University Scholars Programme (USP)**, an interdisciplinary academic programme that offers the freedom to explore across disciplines, a wide range of extracurricular and overseas opportunities, and a community of exceptionally motivated and talented students.

My Major + USP

USP students earn 30% of their academic credits in USP, and 70% in their home faculty.

USP Curriculum

USP offers a wide range of interdisciplinary modules, on topics as diverse as The Mind, Human Relations, Evolution, Simplicity, and Sonic Arts. USP students take a writing module in year one, which provides a foundation in writing and thinking critically. Beyond year one, additional for-credit options include individual research with a

faculty mentor, and overseas academic exchanges and entrepreneurial internships.

Overseas Experiences

USP encourages, and provides financial support for numerous overseas initiatives. These include exchange programmes at universities such as Harvard, Yale, Princeton, Stanford, Peking University and Australian National University; expeditions to destinations such as Himalaya, Cambodia, and South Africa; and overseas field trips.

USP Residential College

USP will offer an integrated learning and living experience when it moves to its residential college at NUS University Town in July 2011.

Applying to USP

Students are admitted to USP based on their academic potential, together with their passion, motivation and curiosity. Application is by transcript, essay, and interview with USP professors.
